

# The Triton Series

The Triton series of roll-to-roll liquid laminators are top quality rollcoaters designed for ease of operation and to apply a smooth consistent layer of water based liquid laminate that is precisely measured by one of the two Meyers bars that come with every machine. The Triton Series Laminators can be used to coat a variety of inkjet prints on most flexible substrates and are an economical alternative to traditional film laminating. Call today for more information!

## Triton Features

- Instant dry infrared lamp system
- Powerful dryer \*(See below)
- Low cost and environmentally friendly
- Simple operation, easy maintenance
- Plexiglass laminate tank
- Easy to clean with water
- Reverse function
- Cooling fans at take-up roll
- Applications include banners, directional signage, vehicle graphics, fine art paper, canvas, building fascia, POP, fleet graphics, and many more.
