A range of short/medium term go-to intermediate signage films providing quality, consistency and reliability - all at a very competitive price.

- High quality, digitally printable films suitable for solvent, eco-solvent, UV and latex inkjet printers.
- Available with (air release) Comply™ technology for ease of application on larger, more difficult applications.
- Ideal for smooth, flat and simple curved surfaces such as flat sided vehicles and metal panels, rigid plastic, and painted substrates such as ACM panels.
- Matching Gloss, Lustre and Matte Laminates to suit any application.
- Excellent Printability.
- Proven performance and reliability backed by the world's leading manufacturer. 3M films are renowned for working well, looking good, and lasting longer.
